Software Development Intern (Remote)

Company: NexaByte Technologies Pvt. Ltd.

Location: Remote (India)

Duration: 3 Months (May 2026 ? July 2026)

Stipend: ?8,000/month

About the Role

We are looking for a motivated Software Development Intern to join our dynamic engineering team. You will work on real-world projects involving web development, APIs, and basic AI integrations, gaining hands-on experience in building scalable applications.

Key Responsibilities

Assist in developing and maintaining web applications using React.js and Node.js

Build and integrate RESTful APIs

Collaborate with the design team to implement responsive UI components

Debug and fix issues across frontend and backend systems

Work with databases like MongoDB / PostgreSQL

Participate in daily standups and agile development cycles

Contribute to basic AI feature integrations (e.g., chatbot, recommendations)

Required Skills

Basic knowledge of JavaScript, HTML, CSS

Familiarity with React.js / Node.js

Understanding of REST APIs

Basic Git knowledge

Problem-solving mindset

Preferred Skills (Optional)

Experience with Next.js or Express.js

Exposure to AI tools/APIs (OpenAI, Gemini, etc.)

Knowledge of TypeScript

What You'll Gain

Real-world development experience

Exposure to AI-powered applications

Certificate of completion

Letter of Recommendation (based on performance)

Opportunity for full-time offer (PPO)
